

## REMARKS

Applicant notes that an Amendment to the Specification was made in the Amendment mailed May 11, 2004 (a copy of which is attached) and received by the U.S. Patent Office on May 14, 2004. The Amendment was to the paragraph on page 1, beginning at line 9 which corresponds to the title of the application. That Amendment changed the title from "Computer With Switchable Components" to -- Self-Repairing Computer Having Protected Software Template and Isolated Trusted Computing Environment for Automated Recovery From Virus and Hacker Attack--.

Applicant notes that in spite of this May 11, 2004 Amendment, the Notice of Allowance and Issue Fee(s) Due forms maintained the original title "Computer With Switchable Components".

Applicant submits that this is a Patent and Trademark Office error which should be corrected within the Publication Branch prior to patent printing and issue and that no petition or fee should be required. However, in order to assure that the patent issues with the intended title as amended, applicant herewith submits an Amendment After Notice of Allowance under Rule 312 to formally correct the title.

While applicant believes that no further fees are due at this time, the Commissioner is authorized to charge any fees that may be due as a result of this amendment or any required petition fees, or other fees that have not been separately paid, to Deposit Account 50-2319 (Order No. A-70543/RMA (469217-00009)).

Respectfully submitted,

DORSEY & WHITNEY LLP

R. Michael Ananian
